

# S&B SYSTEMS, LLC

SECURITY PROVIDERS THAT MEET YOUR NEEDS AT THE BEST PRICE!

Trilogy Network™ Locks support 802.11 or ethernet to save time, money and eliminate programming and retrieving audit trail information at the door

**EASY TO INSTALL  
AND SETUP CAN  
TAKE LESS THEN 1  
HOUR!**

**FLEXIBLE AND  
EXPANDABLE TO  
MEET YOUR NEEDS!**

Up to 2000 locks and a PC communicate wirelessly through bidirectional Gateways – eliminating the need for door-to-door programming and audit trail retrieval.

In seconds, global lockdown can be implemented from any Trilogy lock or the DL-WINDOWS computer.

**Upgrade any glass door's mechanical lock to a keyless Trilogy® ID-card or PIN-code access system for 1/3rd of the cost of a wired system**

- + Give electronic keyless access to up to 2000 users or ID card holders—add them right at the door with just your fingertip
- + Uses the same ID cards and gives the functions of a wired PC-based access system: Set free-passage mode or automatic-lock/unlock times by real time schedule; get door-use reports by user, date, time, even to your PC
- + Ideal for any office, medical, retail, law, government office with an interior or exterior glass/aluminum door
- + Standalone Trilogy is long-life battery operated & easily retrofits over existing mechanical Adams Rite latches/deadbolts
- + Code-only economy models, too. Plus, coming soon: ET model for use with panic bars from Von Duprin, Doromatic, Jackson, DCL, etc.

We're your Trilogy access control specialists, call us today:

### DL6100 & prox/PIN version PDL6100

Trilogy Network Locks eliminate door-to-door programming and audit trail retrieval by communicating wirelessly via Ethernet or 802.11B/G, while providing all original Trilogy standalone lock's functionality. They provide a quick, easy, economical access system with advanced features & functions, like automatic schedules, event logs and support for 2000 doors and 5000 existing Prox. ID Cards/Badges, but with no wires to run, and no access panels or power supplies to buy or install. At its simplest, it's one Grade 1 durable wireless lock per door, installed in about an hour, all communicating to a single Gateway (each gateway controls up to 63 locks), networked to any non-dedicated Windows-based PC. In addition to Wireless Trilogy Network's unsurpassed battery-life, exceeding 5 years, they feature new network-wide capabilities, executed from any lock or the network's PC, including emergency priority global lockdown or unlock deployed in seconds, and you can activate (non-priority) system-wide free-passage or locking modes from the PC. For existing Trilogy installations, original standalone and new Trilogy Network locks can seamlessly share one common database hosted on free Alarm Lock DL-WINDOWS software.
